## Baby Safety Products for \$100 or Less

The cost of caution-conscious baby and toddler gadgets keeps coming down. Here's a sampling of modestly priced products that are widely available in retail outlets and online at sites such as amazon.com.

**Knee pads** for rug rats cost about \$20. Just like grown-ups wear to protect knees when weeding or skateboard, these pint-size pink knee pads go on when baby starts to crawl and also come in handy when the child, up to age 4, wants to try more bruising sports such as roller skating.
