

Snazzy Baby Deluxe Travel Chair Review & GIVEAWAY {Winners Choice!}

When it comes to buying baby gear for my kiddos, safety is my first and foremost thought. My boys are the most important thing in the world to me and I will do anything in my power to keep them safe. When I am looking for any specific product I always have to make sure that I am getting something that is safe for us to use. It always scares me with all of the recalls that are out on so many different items and I want to make sure that I do everything that I can to stay away from those products.

I was so excited when I was contacted about doing a review for them. [Snazzy Baby](#) was wonderful and sent us a "[My Baby's Deluxe Travel Chair](#)" in navy blue to review. When Monkey was little I had bought one of the My Little Seat tie on infant seats for bringing with us when we go out. The one major complaint that I had with it was that you had to use a chair that was about the size of a folding chair. How many people have chairs at their table the size of a folding chair?? Almost no one. Since it didn't fit right on many chairs I had to watch him super closely because there was a time or two that the chair slipped off of the back of the chair and he almost went tumbling to the floor. Not good!

The Deluxe Travel Chair is a multi-purpose travel seat that works in almost any circumstance whether it be at home, a friend's house, or a restaurant. You can use it on a cart, chair, high chair, or even strap it onto yourself and have your kiddo sit on your lap. You can even use it when you are flying on an airplane (only when you are in the cruising portion of the flight) so that you can keep your child secure and strapped to you.

One of the most frustrating things when you go to certain restaurants is the fact that a lot of them don't have high chairs or anywhere for little ones to sit when they aren't old enough to use a chair on their own. This chair makes it so where you always have a safe and secure place for your little one to sit anywhere you go. One of my favorite features is that it has a non-slip bottom so that your little one won't slide down when they are sitting in the seat. Monkey gets so frustrated when he is trying to sit up like a big boy in a chair and keeps sliding down. When using the Deluxe Travel Chair you never have to worry about your child sliding down in their seat.

Monkey looks and feels so safe and secure in his travel seat and it is wonderful knowing that it is buckled onto the chair so he has no way of falling off and getting hurt. I love the fact that it has 4 high quality snaps keeping him in and it goes over his shoulders so that he can't stand up and fall out.

One last wonderful thing about the chair is that it is machine washable so that you can easily get all of that spilled food off of it. So many kids products that are made these days aren't washable which seems so silly to me! With the Deluxe Travel Chair you just throw it into the wash and hang it on the clothes line to dry and you will have a nice clean chair to use over and over again.

If you or anyone that you know is in need of something easy to use, compact, safe, and good quality to carry around with you in the diaper bag to use as a seat for your kiddo make sure that you check out [Snazzy Baby](#). I would definitely recommend this chair to anyone that is looking.

Buy It:

You can purchase all Snazzy Baby products on their [website](#), as well as a number of [online retailers](#). The Snazzy Baby My Baby's Own Deluxe Travel Chair runs for \$34.99.

Win It:
